#### **DETAILED ACTION**

#### Claim Rejections - 35 USC § 112

- 1. Claims 1-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
  - a. The following claims vague, indefinite, awkwardly, and confusingly wording:
    - i. "wherein" in claims 1 and 3, line 1. The claim does not have proper claim connective. The applicant should use "comprising and consisting".
    - ii. "adapted to" in claims 1, 11, and 19. The limitations does not positively any limitations. It has been held that the recitation that an element is "adapted to" perform a function is not a positive limitation but only requires the ability to so perform. It does not consitute a limitation in any patentable sense. *In re Hutchison, 69 USPQ 138*.
    - iii. "its" in claim 12, line 3. The limitations should be positively recited.

### Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 3723

3. Claims 1-3, 4, 7-11, and 14-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Haruna (6604738).

Haruna disclose the claimed invention as recited in claims 3, 4, 7-11, and 14-17. Haruna discloses a clamping apparatus having an annular pillar (40), reference block (1), an inner sleeve (38), an outer sleeve (23), a locking means (top of 40), a releasing means (39), an advancing means (24), and restoring means (34).

## Allowable Subject Matter

4. Claims 5-6, 12-13, and 18-25 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

#### Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The 892 form discloses prior art being made of record.
